DETAILED ACTION

Allowable Subject Matter

1. Claims 6, 14 and 15 allowed and renumbered as 2, 3 and 1 respectively.
2. The following is an examiner's statement of reasons for allowance: With respect to claim 15, the instant invention is directed to a terminal equipment connected to a cable television station of cable television to receive a cablecast signal for television programming delivery system and a master terminal including a first tuner and second tuner and a slave terminal for receiving signals transmitted from the master terminal. The relevant prior art of records, such as **Streck et al (4,916,532)** teaches a television local wireless transmission and control. **Lownes et al (6,137,539)** disclose digital television and VCR status display. **Moss et al (5,485,370)** disclose home services delivery system with intelligent terminal emulator. **Zou (6,684,401)** discloses method and system for independent incoming and outgoing message dispatching in a home audio/video network. **Eytchison (6,363,434)** discloses method of managing resources within a network of consumer electronic devices. However neither **Streck, Lownes, Moss, Zou** nor **Eytchison**, and any of the cited references teach or suggest, alone or in combination, the feature of "a message signal outputting means for outputting a message signal for displaying a selected state of the selector subsection on a second television receiver, to transmit the message signal through the radio-transmitter section to the slave terminal, the message signal indicating that the image signal is prevented from being transmitted when the selector subsection is switched to send the image

signal from the second tuner section to the picture-recording device," as recited in combination other features with respect to independent claim 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Humpleman (6,493,874) discloses set-top electronics and network interface unit arrangement.

Gibbs (6,452,935) discloses stream allocation in home networks.

Sizer II et al (5,727,053) system and apparatus for recording and displaying received information at a remote location.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Annan Q Shang** whose telephone number is **571-272-7355**. The examiner can normally be reached on **700am-500pm**.
